FOOD INDUSTRIES

DISTRIBUTION • ENGINEERING • PRODUCTION
Established 1928—McGraw-Hill Publishing Company, Inc.

Volume 8

January, 1936, to December, 1936

GENERAL ALPHABETICAL INDEX

January 1-52
February 53-104
March 105-158
April 159-212
May 213-266
June 267-324
July 325-378
August 379-434
September 435-488
October 489-590
November 591-604
December 605-654

A

Accidents and Accident Prevention:
Armour & Co. cuts accidents in half (N) 484
Food plant accidents increase in 1935 443
National Safety Council's food section to conduct investigation (N) 49
Record of 734,000 man hours without an accident. R. B. McDade .. 8
Safety guard for eccentric drive. Carl Richards *416

Accounting:
Controlling production and materials. Francis Chilson *349
Cost accounting for controlling operations. L. H. Duckle *169
Stock control speeded by acounting system. R. H. Butz *631

Advertising:
A & P seeks allowances (N) 482
Cooperative color film *536
Electric sign for advertising nuts and chocolate *639
How food manufacturers compensate advertising agencies. T. G. MacGowan 164
How food manufacturers employ advertising agencies. T. G. MacGowan 110
How food manufacturers select advertising agencies. T. G. MacGowan 221
Selling the American industrial system to the public by ads (N) 544
Services food advertisers want...and get from agencies. T. G. MacGowan 454
What food advertisers think of agency solicitations 345
Aging wines. M. A. Joslyn *444

Agricultural Adjustment Administration:
AAA is dead...what next? 58
AAA substitute passes (N) 152
Post AAA situation (N) 100
Programs put into effect (N) 48

Air Conditioning:
Atmospheric factors affecting the storage and handling of fresh fruits and vegetables. D. F. Fisher *289
Baking plants need temperature and humidity control at three levels. W. W. Reece *305
Breweries use atmospheric control to improve quality and reduce costs. *386
Control of odors and molds by ozone and ionized oxygen 307
Control of odors and mold by ozone and ionized oxygen-non-split piping for ozone. N. B. Hartman ... 416
Controlled atmosphere applications in the food industries (table) ... 271
Dehumidifier (e) *532
Dust filters used most by steel industry (ed) 268
Essential oil concern gets better plant location by using air conditioning. F. H. Leonhardt 298
Ethylene atmospheric control for fruits and nuts. Chace & Sorber. *292
Equipment for air conditioning ... *279
Fish packer saves $55 per month by cooling unit *303
Food manufacturers' responsibility before operating under air conditioning. Culver & Garnatz *276
Fruits and vegetables precooled in lighters before shipping *301
How industrial air conditioning operates in the food field. Walter Jones (chart) 272
How to reduce bacteria in conditioned air 529
Ice cream production costs cut by controlled cooling. E. N. Hershey *299
Macaroni manufacturer in Mexico finds air conditioning pays. Francisco Valdes *620
Macaroni plants could use air conditioning in the drying room *330
Manufacturers of air-conditioning equipment 311
Meat packer profits from conditioned air 304
Medicated cough drop production needs humidity control *308
Mushrooms grown in summer aided by refrigeration and air control. *359
Ozone in cold storage. A. W Ewell 621
Rate of air movement of vital importance. Vernon Cano 275
Smoke houses can be air conditioned for close control. Walter Jones. *332
Why "controlled atmospheres" are important to you (ed) 269
Air receiver installation. J. E. Hyler .. 97
Hyler 97
American Assn. of Cereal Chemists: Dallas convention (N) 372
American Assn. of Creamery Butter Manufacturers: Chicago meeting (N) 49
American Bakers' Association: Atlantic City meeting and exhibit (N) *597
American Bottlers of Carbonated Beverages: Chicago convention and exposition (N) *645
American Chemical Society: Pittsburgh meeting (N) 541
Associated Coffee Industries of America: Pittsburgh convention (N) 543
American Society of Bakery Engineers: Chicago meeting (N) .... 154; (N) .*205
Associated Grocery Manufacturers of America—To protect profits (N) ... 152

B

Bacteria:
Alkalinity control of ingredient water reduces spoilage in carbonated beverages. H. Buttler *233
CO_2 as antiseptic in grape juice manufacture in South Africa *67
Combating molding in basement storing Olsen, Stalter, Palmer, Carney, Torrence, Hinkle, Patten 360
Control of odors and mold by ozone and ionized oxygen-non-split piping for ozone. N. B. Hartman .. 416
Dirty closures (ed) 108
Food poisoning (ed) 57
Freezing does not kill all bacteria ... 358
Freezing does not kill bacteria, yeasts and molds (N) 374
Garlic has germicidal power 468
How bacteriological "flow sheet" locates cause of green meat 469
How to reduce bacteria in conditioned air 529
In defense of the lowly mold. M. A. Pozen, 389; correction 449
Mold and bacteria killed by new lamp. R. F. James *295
New bacterium found in "sick" wines 412
Ozone in storage. A. E. Ewell ... 621
Ozone and ionized oxygen to control odors and molds 307
Preservation stops bacterial decomposition of fish 586
Progress in "rope" and mold control. Kirby, Atkin & Frey *450
Reheating custard-filled pastries to make them safe 412
Bag filling machine (e) 93

Bakeries and Baking:
Air conditioning in baking plants .. *305
ASBE holds record meeting (N) ... *205
Bakery engineer (ed) 108
Bakery uses heavy duty trucks to take loads from plant to distribution points *569
Baking company makes a new plant from an old one. E. F. Weisbrod *334
Baking tests for flour. M. J. Blish. *68
Cake baking under air conditioning. Culver & Garnatz *276
Cost system for controlling operations in bread baking. L. H. Duckles *169

• Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patent. (N) News.

Flavoring and color used in baking. Schell, Cox ... 470
Fried pies ... 592
Hydrogen peroxide leavened cakes .. 529
Mold and bacteria killed by new lamp. R. F. James ... *295
Paper baking plates ... 592
Pastry manufacture regulated in Westchester County (N) ... 153
Pie-crust mixture packaged ... 400
Pittsburgh bakery contends with an unprecedented flood ... *223
Pretzel making modernized ... *17
Production costs cut by better management. D. J. Sadler ... *561
Progress in "rope" and mold control. Kirby, Atkin & Frey ... *450
Rate of air movement of vital importance. Vernon Cano ... *275
Reconditioning iron baking pans and trays. H. G. Fitzgerald ... 18
Reheating custard-filled pastries to make them safe ... 412
Sour batter in ice cream cones ... 357
Temperature control of batch processes ... *237
Traveling tray oven (e) ... 93
Vacuum cooling solves production problem. E. S. Stateler ... *392
Bakeries and Baking. See also Bread.
Bamboo shoots not poisonous if cooked .. 587
Barrel and key handling. M. W. Potts .. *166
Barrel rack (e) ... 474

Beer:
Aging beer without the storage period ... 634
Aluminum beer can ... 87
Beer for fly bait ... *96
Half-gallon beet bottles ... 534
Two-quart developed by brewer ... *344
Vitamin-D beer ... 252

Beverages:
Alkalinity control of ingredient water reduces spoilage in carbonated beverages. H. Buttler ... *233
Bottling orange drinks questioned (N) ... 426
Dairy orange beverages quickly lose vitamin C ... 412
Fruit flavored drinks sterilized by new method ... 633
Grape juice manufacture in South Africa by the cold process with CO_2 as antiseptic ... *67
Grape juice preservation ... 469A
Health beverages ... 400
Malting is more than the sprouting of barley. Heinrich Luers—pt 1. *126 pt 2. *176
Soft-drink powder ... *29
Vegetable juice ... *141

Blanching:
New blanching procedure for peas. Kohman & Sanborn ... *112
Progress, slow but certain (ed) ... 109
Temperature control in continuous processes ... *403

Book Reviews:
Abstracts of literature on the manufacture and distribution of ice cream ... 95
All about tea. W. H. Ukers ... 95
American Chamber of Horrors. Ruth deForest Lamb ... 654
American menu maker. G. L. Menzel 204
Automotive money-saving facts. J. F. Winchester ... 548
Carbon dioxide. Quinn & Jones ... 548
Chemical engineering catalog ... 604
Complete course in canning ... 476
Corrosion resistance of metals and alloys. McKay & Worthington .. 434
Cost of government in the United States 1933-1935 ... 476
Decline and rise of the consumer. H. M. Kallen ... 654
Flour milling processes. J. H. Scott 548
For millers in the making ... 434
Freezing preservation of fruits, fruit juices and vegetables. Tressler & Evers ... 476
Glances at industrial research. Weidlein & Hamor ... 204
Handbook of food selling ... 434
Legal protection of good will. F. S. Moore ... 434
Mutton and lamb survey ... 434
Packaging, packing and shipping, ed. by J. O. Rice ... 604
Rich land, poor land. Stuart Chase. 604
Sausage and small goods production. Frank Gerard ... 204
Story of the canning industry ... 434
Tea and coffee buyer's guide ... 434
Theory of emulsions and their technical treatment. William Clayton 95
Theory and practice of ice cream making. H. H. Sommer ... 149
Traffic dictionary. Nelson & Stuffebeam ... 204
Vitamin D activity of cacao shells. A. W. Knapp ... 378
Why quit our own. Peek & Crowther 548
Workshop receipts ... 378
Yearbook of agriculture 1936 ... 548

Bottles:
Alkali content in bottle washing materials. Max Levine ... 22
Arrangement of lighting for bottle inspection. E. S. Pattison ... 527
Bottle conveyor cover ... *361
Bottle feeding disk (e) ... *255
Bottle hood with window ... *400
Bottling plant conveyor. J. P. Petit ... *584
Hires redesigns its bottles ... *400
Mexi-Pep in better bottle ... *456
Returnable bottle for beer ... *87
Two-quart bottles developed by brewer ... *344
Wine bottles ... *86

Bread:
Baking tests for flour. M. J. Blish *68
Canned bread ... 251
Dry ice keeps bread fresh ... 632
Progress in "rope" and mold control. Kirby, Atkins & Frey ... *450
Refrigerated bread (ed) ... 4
Rye bread improved. A. H. Johnson *567
Streamlined packages. H. E. Taylor *26
Vacuum cooling for bread and cake. E. S. Stateler ... *392

Brewing:
Aging beer without the storage period ... 634
Atmospheric control reduces costs and improves quality in breweries *386
Brewers oppose standards (N) ... 100
Malting is more than the sprouting of barley. Heinrich Luers—pt 1. *126 pt 2. *176
Sterile air used used in the brewing industry ... *554
Brewing. See also Beer.
Business trends .. 44, 98, 150, 202, 258, 370, 424, 480, 538, 594, 642

Butter:
Butterfat tester (e) ... *255
CO_2 speeds up churning operation .. 530
Does babassu oil menace butter? .. 617
Dry butter color ... 358
How production and availability of raw materials affects quality. M. E. Parker ... *337
Making butter without starter. F. W. Bouska ... 196
Menace of pale butter. M. E. Parker 558
Paradoxes of quality control. M. E. Parker ... 395
Pull-out butter pats ... 346
Quality of butter improved (N) .. 542
Relation of butter production to acreage (map) ... 338

C

Canning and Preserving:
Asparagus butts made useful. L. A. Hall ... 19
Automatic control of temperature in continuous processes ... *403
Beans cooked in a new way ... *31
Beets that turn black in can spoiled by understerilization ... 358
Blanching procedure for peas. Kohman & Sanborn ... *112
Britain as a market for tomato products. H. B. Cronshaw ... 119
Can-cured cheese ... *85
Can filling machine (e) ... *364
Cherry preserving by the vacuum method. W. F. Robertson ... *173
Chicago conventions (N) ... 99
Cleaner crabmeat (N) ... 374
Code considered by canners (N) ... 482
Code marking labels. C. E. Kafka .. *629
Color in canned vegetables ... 632
Condensate steam savings. N. T. Pef 415
Controlling serial batch operations in canning fish cakes. M. P. Vucassovich ... *230
"Corn-shops" down in Maine. L. V. Burton ... pt. 1 *9, pt. 2 *62
Dents in cans avoided. S. H. Coleman ... 471
Four kinds of trouble avoided by using less water. L. V. Burton *384
Freezing industry trends. H. J. Humphrey ... *612
Fried potatoes in cans ... *592
Grade labels favored (N) ... 48
Home canned tomatoes lose vitamin C before consumption ... 632
Hotel steward looks at food manufacturers. C. J. Hauser ... *6
Losing vitamin C in cooking cabbage 529
Meat products canned ... *28
Mushroom standards (N) ... 261
Preserve manufacturers get code (N) 540
Shrimp label rules (N) ... 49
Soviet cannery ... *162
Substandard preserves condemned (N) ... 206
Swelled cans of beef ... 632
Tomato labels (N) ... 542
Vacuum in all-glass jars tested ... 358
Volatile preservative ... 85
Wine, canned ... *347
Wine in cans ... 456
Case washer (e) ... 636
Ceramic and glass materials recommended by manufacturers for use in food plants ... *137

Cereals:
Corn meal storage ... 587
French method of puffing grains ... 587
Machine for puffed cereal manufacture (e) ... 471
Rice with a popcorn flavor ... *640

Cheese:
Can cured cheese ... *85
Cheese prevents cataracts—in rats. 634
Cottage cheese manufacture. R. F. Flint ... *71
Patman law violated by cheese and yeast manufacturers (N) ... 644
Sediment to be detected by microanalysis (ed) ... 3
Spigot with every keg of rennet 252
Touring laboratory to assist cheese makers (N) ... *373
Chemical Show (ed) ... 2

Chocolate:
Candy factory finds that stored cold ends plant cooling troubles. L. G. Hooper ... *448
Cocoa bean quality necessary to finished product. B. J. Zenlea ... *227
Flavoring and coloring measured for candy. C. D. Barnett ... 469B
Rate of air movement of vital importance. Vernon Cano ... 275
Civilian Conservation Corps Feeding the CCC ... 59
Cleaner for dry materials (ed) ... *419

Cleaning and Sanitation:
Air cleaning of foods (ed) ... 217
Alkali content in bottle washing materials. Max Levine ... 22
Bake pans conditioned ... 96
Baking company makes a new plant from an old one. E. F. Weisbrod *334
Care of thermometers and other precision instruments. Clarke, Seymour-Jones, Hoffman ... 525
Celery washing and packing. W. A. Leffler ... *75
Drip from ceiling should be remedied 411
Glass and ceramic materials solve problems of corrosion, sanitation and inspection ... *137
Ham washer ... *254
How to put quality into meats. B. C. Dickson ... *20
How Underwood avoids clogged controls ... *339
Machine for cleaning conveyor trolleys ... *362
Reconditioning iron baking pans and trays. H. G. Fitzgerald ... 18
Ruined by improper clean-up 627
Sewer cleaning device for Los Angeles Terminal. C. A. Giebel .. *630
Storeroom should be clean, dry and cool. Talbott, Windt, Bowman .. 414
Washer for beer cans (e) ... *532
Coal buying in summer. N. T. Pef ... 583
Cocoa. see Chocolate.

Coconut:
Liquid coconut flavor ... 347
Non-rotary air dryers for food engineering. Birney Miller ... *183

Codes:
Preservers want code (N) ... 47

Coffee:
Associated Coffee Industries of America meet (N) ... 543
Dated coffee and trucks ... *245
Foil bag for coffee ... *87
Machine roasts, cleans and cools green coffee ... *437
Pressure pack coffee ... *401
Research engineering in flaked coffee. E. S. Stateler ... *12
Roasted in sealed container in which it is marketed ... 413
Staling of coffee. R. O. Bengis 234
Staling of coffee is preventable. P. W. Punnett ... 178
Vacuum containers best for fat-containing dry foods. Punnett & Eddy ... 341

Coloring:
Certified, for foods. J. R. Hall.. 24
Chocolate manufacturer measures flavor and coloring. C. D. Barnett 469B
"Colloidal black" food color 139
Controlling flavoring and color used in baking. Schell, Coz 470
Ice cream manufacturer handles flavors and colors under laboratory control. C. C. Walts..... 470
Modernized food color package.....*346
Off-color and off-flavor caused by metal in food..... 411
Concrete protected outdoors. J. E. Hyler 361

Confectionery:
Certified colors for foods. J. R. Hall 24
Cod liver health candy *191
Fudge-mix *31
Health caramels *87
Marshmallow creme *86
Medicated cough drop production needs humidity control *308
Molasses as a food flavor. William Lohr 115
Stored cold ends plant cooling troubles in chocolate factory. L. G. Hooper *448
Construction news....42, 98, 150, 202, 258, 318, 370, 424, 480, 538, 594
Consumer Research 154

Containers:
Aluminum beer can 87
Aluminum lined bags 347
Banana shipping box wins Wolf award 190
Cake box 640
Can for shortening wins honor *180
Canape wafers in special package..*141
Carton becomes toy *140
Carton measures lard..... 640
Carton and cartoning machine saves labor and materials. Francis Chilson *187
Cheese in a crock *32
Cocoa in bags *347
Coconut in new box *86
Coffee containers win honors *190
Dried vegetables in transparent-cellulose bags *543
Easter special package for eggs ... 139
Foil bag for coffee *87
Foil wrapped carton for coffee ...*251
Food being shipped in former poison kegs (N) 426
"Fruit" as container *346
Fruit packaging experiments (N).. 373
Ginger-bread mix in new package*140
Ice cream carton redesigned *86
Jelly in 60-lb. pail 347
Junket container is dispenser *592
Lacquered containers safe 530
Light-proof carton material (e) .. 256
Macaroni and spaghetti in vertical packages *141
Mustard in cups 400
Nut package with transparent window *641
Odor and taste from wood 128
Paper bag, 110 lb. 346
Paper-bottle victory (N) 372
Prunes in window package *592
Rail-truck containers *113
Simplified containers for dairy products (Food Industries data sheet)*181
Spice packages in transparent cellulose *140
Tin vials for seasons *31
Vacuum containers best for fat-containing dry foods. Punnett & Eddy 341
War of the containers (ed) 107
Wheatena improves its package ... *87
Containers. See also Packaging.

Control:
Air conditioning equipment *279
Automatic control of temperature in continuous processes *403
Baking plants need temperature and humidity control at three levels. W. W. Reece *305
Care of thermometers and other precision instruments. Clarke, Seymour-Jones, Hoffman 525
Control instruments (e) *531
Controlled atmosphere applications in the food industries (table) ... 271
Controlling packaging supplies ...*129
Density control (e) 145
Ethylene atmospheric control for fruits and nuts. Chace & Sorber*292
Gas storage of meats *309
How Underwood avoids clogged controls *339
Humidity control for medicated cough drop production *308
Ice cream production costs cut by controlled cooling. E. N. Hershey*299
Meat packer profits from conditioned air 304
Serial batch operations controlled in canning fish cakes. M. P. Vucassovich *230
Smoke houses can be air conditioned for close control. Walter Jones*332
Taking care of special instruments. Bisno, Gordon, Pyle 582
Temperature control of batch processes *237
Productos Alimenticos plant's drying room *621
Temperature control thermometers necessary 357
Unit cooler saves $55 per month..*303
Water mixture temperatures controlled. J. E. Hyler 471
Why "controlled atmospheres" are important to you (ed) 269
Controlled atmosphere number .....June

Conveyors:
Belt conveyors in food plants *503
Bottle conveyor cover *361
Bottling plant conveyor. J. P. Petit*584
Can feeder for conveyor *526
Chain conveyors *510
Control for ice cream can conveyor. Al Sutton *417
Designing difficult conveyors 524
Exhaust box conveyer (ed).....*636
Loading milk bottle cases onto trucks. Billie Burgan.....*471
Open mesh conveyor chain (e) *531
Overhead conveyors *514
Protecting conveyors. S. H. Coleman 415
Re-conditioning conveyor chains. trucks. Billie Burgan *147
Roller conveyors *508
Screw conveyors for handling fish waste. H. F. Taylor *608

Cooking:
Lard production job made easy. A. H. Merkel *179
Preserving cherries by the vacuum method. W. F. Robertson *173
Temperature control of batch processes *237
"Corn-shops" down in Maine. L. V. Burton .....pt. 1 *9, pt. 2 *62

Corrosion:
Glass and ceramic materials *137

Costs:
Controlling operations through cost accounting in bread baking. L. H. Duckles *169
Plant layout of bakery improved to cut costs. D. J. Sadler *561
Processing costs reduced 54% (ed) 163
Council for Industrial Cooperation:
Berry's reports (ed) 161
Council for Industrial Progress:
Meeting called (N) 47
Couplings for small profits. S. H. Coleman *254

Curing:
How aging affects the distribution of salt in cured hams. Miller & Zeigler *121

D

Dairies, Equipment:
How to keep ceilings dry in winter. W. A. Dean, Jr. *388
Hydraulic lift for cooler *313

Dairy Products
American looks at ice cream in Europe. H. A. Bendixen *15
Consumption of dairy products 1925-1934 (table) 370
Cream quality to be improved (N) .. 49
Dairy program (N) 152
Federal Trade Commission dairy probes objected to by dealers (N) 100
FTC criticizes dairies (N) 260
Merit system controlled by laboratories set up by dairy company. J. H. Schrader *235
New York City dairies accused of milk control (N) 598
Paradoxes of quality control in using milk. M. E. Parker 395
Selective selling as demonstrated by a dairy. W. A. Underwood *622
Dates in brandy *85
Deaerator, vacuum (e) 532
Dry ice (CO_2) new uses..... 633

Drying:
Air conditioning could be used in drying rooms of a macaroni plant*320
Asparagus butts made useful. L. A. Hall 19
Fish processing with vacuum dryer and pneumatic conveyor. H. F. Taylor *608
Non-rotary air dryers. Birney Miller *183

Dust Explosions:
Dust collector.....(ed) 268, (e) 365
Causes and prevention of soybean plant explosions *117
Explosibility of dusts in food plants 175
Explosion hazards (ed) 109
Food explosions (ed) 162
Soybean safety (N) 544
Too many explosions (N) 427

E

Eggs:
Dipping in mineral oil in partial vacuum to preserve *540
Ozone and ionized oxygen to control odors and molds 307
Preservation and storage of eggs ... 529
Preserving eggs by vacuum carbon-dioxide method (N) 428
Six different forms and conditions of the egg defined by U. S. Dept. of Agriculture (N)..... 645
Testing frozen eggs. Joseph Coffin 526
Thinning egg whites 586
Elevator, portable (e) 588

Employees:
Accidents in food plants increased during 1935 443
Cross index of men under jobs for ready reference 528
Experience or obstinacy? 581
How five meat packing plants made the most of their payroll dollars. S. A. Weart *614
Ignorant or uninstructed workmen 467
Need for better labor policies (ed) 550
Pay increases. J. E. Hyler..... 621
Problems ahead (ed) 56
The way to more pay 524
Wrigley adopts pension plan (N) .. 101
Engine, gas *363

Enzymes:
Malting is more than the sprouting of barley. Heinrich Luers pt 1.*126 pt 2.*176
Enzymes and the storage of perishables. E. F. Kohman *287

Equipment:
Air conditioning equipment *279
Baking company makes a new plant from an old one. E. F. Weisbrod*334
Belt conveyors in food plants *503
Box lid control. Billie Burgan....*416
Breweries use atmospheric control equipment to improve quality and reduce costs *386
Broken glass receptacle. F. E. Fowler *415
Chain conveyors *510
Chutes, elevators, screw conveyors..*501
Evaporation: a unit operation required for 47 different foods.....*573
Ice cream production increased by mechanizing two specialty products. H. E. Miller *452
Keeping ceilings in milk bottling plant dry in winter. W. A. Dean Jr. *388
Layout of lard production job. A. H. Merkel *179
Magazine feeds solve some package wrapping problems. F. H. Mayoh*459
Manufacturers of air-conditioning equipment 311
Overhead conveyors *514
Research engineering in flaked coffee. E. S. Stateler *12
Roller conveyors *508
Sack holder. Jimmy Bradford *415
Spring hose suspension *313
Stainless steel, nickel and nickel alloy equipment. G. H. Tay *60
Tarpaulin truck cover. George Kelley *417
Temperature control of batch processes *237
Tools operated by means of flexible shaft can be used in many industries. F. A. Westbrook.....*583
Warehouse handling. M. W. Potts*517
Evaporation: a unit operation required for 47 different foods.....*573
Evaporator for milk (e) 92
Explosions. See Dust Explosions.

Exports:
Britain as a market for tomato products. H. B. Cronshaw..... 119

Expositions:
Great Lakes Exposition food section*458

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patent. (N) News.

F

Factory, all glass, but no windows.....*107

Federal Trade Commission:
Those questionnaires (N) 47
Feeder for dry bulk materials (e)*474

Fermentation:
Cider vinegar by gelatine method . 632
Cottage cheese manufacture. R. F. Flint *71

Filtering:
Air filter (e) *198
Grape juice manufacture in South Africa *67
Lard production job made easy. A. H. Merkel *179
Olive oil in storage protected by filtration and vacuum. L. A. Pelton *65

Fish:
Association of Pacific Fisheries pass resolution against Japanese (N). 647
Bland bill to aid fisheries (N) 373
Fish cakes canned in serial batches. M. P. Vucassovich *230
Parchment packages for fish..... 346
Preservation stops bacterial decomposition of fish 586
Processing fish with vacuum dryer and pneumatic conveyor. H. F. Taylor *608
Unit cooler saves $55 per month ...*303
Flaked coffee. E. S. Stateler *12
Flaking mill (e) *42

Flavoring:
Chocolate manufacturer measures flavor and coloring. C. D. Barnett 469B
Coconut, liquid, for flavoring..... 347
Controling flavoring and color used in baking. Schell, Cox 470
Distinctive flavors in foods can be marketed (ed) 215
Flavoring oils 534
Ice cream manufacturer handles flavors and colors under laboratory control. C. C. Walts 470
Malt as a food ingredient. Gordon Maclean (table) 396
Mexi-Pep condiment in bottle.....*456
Mince meat flavoring. W. R. Keldin 470
Molasses as a food flavor. William Lohr 115
Mono-sodium glutamate for meat flavor 627
New line of flavoring 346
"Orange" oil 251

Ozone and ionized oxygen to control odors and molds ... 307
Small parts storage. J. E. Hyler *584
Storeroom should be clean, dry and cool. Talbott, Windt, Bowman ... 414

Sugar:
American Sugar Cane League protests sugar quotas (N) ... 644
Another sugar bill (N) ... 320
Effect of sugar decision by Supreme Court (N) ... 260
Four sugar bills (N) ... 261

Jones-Costigan Act will be revised next year (N) 373
Refinery solves the smoke problem. R. P. DeVries *40
Synthetic sugars from glycerin..... 586
Tablet sugar in smaller package.... 534
Turbidity in refinery products..... 469
Sugar Institute to suspend activities (N) 645

Syrups and Molasses:
Cause of "whang" in cane syrups... 530
Malt as a food ingredient. Gordon MacLean (table) 396
Tank truck for corn syrup *367

T

Tank agriculture *218
Tank with wet insulation (ed) 216
Tapioca in colors 31

Tariffs:
French treaty favors foods (N)..... 319
Reciprocal trade agreements with the Netherlands, and with Honduras (N) 49
Swiss treaty favors foods (N)..... 100
Treaties face test (N)..... 427

Taxation:
Chain store tax invalid (N)..... 646
Demand common sense taxation (ed) 214
Guffey-Dockweiler bill to eliminate tax on coconut oil (ed)..... 217
Hot money (ed) 54
Inheritance taxes and jobs (ed)... 5
1936 taxes per capita (ed) 160
Payroll taxes (ed)..... 2
Perishables vs. non-perishables (ed) 106
Refunded processing taxes (ed)... 106
Senate plans windfall tax (N)..... 319
Tax regulations issued (N)..... 101
Vegetable oil taxes (N)..... 101
"Windfall" taxes (N) 260, (N) 372, (N) 483
Temperature control in continuous processes *403
Thermometer portable (e) *418
Tin-plate conspiracy (N) 206

Tomatoes:
Britain as a market for tomato products. H. B. Cronshaw 119
Ethylene for tomato products? (ed) 381
Home canned tomatoes lose vitamin C before consumption..... 632
Nine-hour day for tomatoes increases crop yield 530
Quality control for tomato paste manufacture 412
Screening machine for use in tomato juice processing (e)..... 635

Trucks and Trucking:
Bakery uses heavy duty trucks to take loads from plant to distribution points *569
Bananas kept warm in trucks during cold weather 467
Bathtub on wheels to carry acid materials 528
Body and truck combinations for food hauling *624
Borden's converts truck layout for use on salesmen's coupes..... *37
Brake requirements. Jones, Sunderman, Nelson, Bobrytzke..... 423
Brake requirements. Ohm, Norman 479
Brake requirements. Swan, Lipman, Lubeley, Faulkner 369
Brake requirements. Wennagel, Lawler 596
Brakes for trucks 537
Dated coffee and trucks *245
Dog-to-dog delivery *56
Effect of truck regulations (ed).... 5
Factors to consider in selecting trailers. Dugan, Schumaker..... 194
Factors to consider in selecting trailers. Drescher 249
Future of door-to-door service (ed) 108
Hand truck for fork-type (e).....*588
Insulated trailer bodies deliver perishables in good condition *88
Insulated and refrigerated bodies (ed) 56
Lift trucks for food handling.....*556
Problems of operating semi-trailers. Angell, Jones, Sinclair, Rath, Barber, Greaney, Phillips 195
Problems of operating semi-trailers. Clements, Terrill, Laine, Roemer, Lipman, Fisher, Faulkner..... 249
Problems of operating semi-trailers. Schumaker, Drescher 315
Providing salesmen with cars. Hansen, Seba, Husson, Lewis, Mather, Desmond, Boyer *90
Puncture-proof tires. Gray, Faulkner, Schumaker 625
Puncture sealing compounds. E. A. Schenk 596
Rail-truck containers *113
Refrigerated trailers for long distance hauling *477
Requirements of truck brakes. Schenk, Hansen 315
Semi-trailer with safety device (e)..*589
Separate salesmen or peddle truck routes. Corey, Bandler, Schultz.. 38
Smaller trucks cut milk route costs*192
Streamlined tank truck.....*367
Tiering truck (e) 144
Tilting tank truck *526
Tires and tubes for horse wagons. Stein, Philipski 479
Tires for trucks. Fisher, White... 537
Trailers *34
Trailers for trucks. Morrison, Faulkner, Miro, Lipman 142
Trailers show savings over rail deliveries *421
Tugwell, Dr. Rexford G. joins food industry (N) 644

U

Ultra-Violet Rays:
Mold and bacteria killed by new lamp. R. F. James *295
Olive oil can be evaluated by ultraviolet light 633
Unit operations in the food industry..... 77
United States Brewers' Assn.:
To continue as an independent organization (N) 426
U. S. Bureau of Agricultural Economics:
More food inspected (N) 428

V

Vacuum cooling for bread and cake. E. S. Stateler *392
Vacuum dryer for fish processing. H. F. Taylor *608

Vegetables:
Atmospheric factors affecting the storage and handling of fresh fruits and vegetables. D. F. Fisher *289
Celery decay halted by pre-cooling. W. A. Leffler *75
Enzymes and the storage of perishables. E. F. Kohman.....*287
Freezing industry trends. H. J. Humphrey *612
Murphy system of quick freezing used by Deerfield Packing.....*559
Small size peas have most vitamin C 469A
Spray danger (N)..... 543
Vegetable juice.....*141
"Wet process" of packing and transporting frozen foods. A. B. Haslacher *438
Yarovization of cabbage seed increases yield..... 586

Vermin:
Asbestos-cement board for vermin proofing. J. E. Hyler..... 148

Vinegar:
Cider vinegar by gelatine method.. 632
Grapefruit vinegar..... 346
Stabilized wines and vinegars..... 413

Vitamins:
Apples studied for vitamins.....469A
Dairy orange beverages quickly loses vitamin C..... 412
Enzymes and the storage of perishables. E. F. Kohman.....*287
Losing vitamin C in cooling cabbage 529
Peas content of vitamin C.....469A
Preservation of vitamin C is extremely variable 529
Vitamin B artificially synthesized.. 469A
Vitamin C disappears in storage... 358
Vitamin H (ed)..... 381
Vitamins made more pure..... 634

W

Washer and sterilizer (e)..... *92

Water:
Alkalinity control of ingredient water reduces spoilage in carbonated beverages. H. Buttler.....*233
Demand reduced by 83 per cent. L. V. Burton.....*440
Four kinds of trouble avoided by using less water. L. V. Burton..*384
Water economizer (e)..... 418

Weather:
Forecasting the weather (ed)..... 217
Weight feeder (e).....*316
Weighing machine for batches (e).....*637

Welding:
Mending cooker lid by welding.... *97
Window guard. Billie Burgan.....*363
Windowless building.....*107, *261

Wines:
California wineries to expand (N).. 154
Canned wine.....251, *347, 456
"Diseased wine"..... 412
Grapefruit wine..... 400
New liquor revenue bill will help domestic wine (N)..... 373
Pasteurization at lower temperatures by continuous stirring..... 634
Process of aging or maturing wines. M. A. Joslyn.....*444
Regulations welcomed (N)..... 152
Stabilized wines and vinegars..... 413

Wood:
Odor and taste from wood..... 128

Wrappings:
Bar wrapping machine (e)..... 365
Bottle wrapping machine (e)..... 146
Solving package wrapping problems. F. H. Mayoh..... *80
Spray-on wrapper 640

X

X-rays to examine packages for foreign materials. L. P. Leather.....*362

Y

Yabunikukei seed fat, a substitute for cocoa butter..... 587
Yeast manufacturers violate Patman law (N) 644
Yeast with bacon taste.....*191
Young, John M. (ed)..... 5
